Portfolio

EDUCATION

*Bachelor of Arts in **Digital Media** at the **University of Central Florida***
Expected to graduate in **May 2024**

EXPERIENCE

Guest Advocate at **Target**
March 2023 - **Present**
- Provided exceptional customer service by greeting and assisting guests with their shopping needs at Target's front-end, including self-checkout, regular checkout, and guest services
- Ensured accurate and efficient transactions by scanning, bagging, and handling payment methods, while also maintaining a clean and organized checkout area
- Demonstrated problem-solving skills by resolving guest concerns, addressing complaints, and escalating issues to the appropriate team members for resolution

Front-End Coordinator at **Publix**
September 2022 - **March 2023** (7 months)

Junior Front End Web Developer at **Trajector** (formerly **Loxley Services**)
November 2020 - **November 2021** (1 Year)
- Spearheaded the development of an Electron-based desktop application aimed at supporting operators in addressing veteran crisis situations
- Conceptualized and designed user-centered interfaces using Figma, aligning with client requirements and feedback
- Collaborated with senior developers in the creation of a React Native application targeting mobile devices, contributing to its successful completion
- Demonstrated expertise in implementing best practices in coding, resulting in the creation of highly responsive and accessible user interfaces

FEATURED PROJECT

Nile Marketplace | React Native
A basic marketplace implementation built with React Native. The app allows users to browse, favorite, and create listings.
